

The University of Lübeck is a modern university specializing in Medicine, Computer Science, Molecular Biology, Biomathematics and Medical Engineering. Internationally renowned research and high standards of academic tutoring characterize the profile of the university.

The Obleser lab in the Department of Psychology, University of Lübeck, is seeking to hire one

Postdoctoral Researcher

Starting at the earliest time possible, preferably by June 2019, for a period of up to 4 years.

Applicants are expected to hold a Masters/Diploma as well as a PhD degree; demonstrate initial career steps taken in any of the fields cognitive neuroscience, psychology, audiology, or engineering; and to share our broader interests in perception, attention and/or ageing (see <http://obleserlab.com>). Prior experience with human cognitive neuroscience methods (especially EEG and/or fMRI analyses) is preferable.

Our lab offers methods teaching for the psychology BSc and MSc courses (see <https://www.ipsy1.uni-luebeck.de/lehre/ag-obleser.html> for details). The post will involve a flexible and modest teaching load. Prior teaching experience is not strictly required.

The ideal candidate is able to align their research interests with the larger research agenda of the Obleser lab and enjoys working in a diverse team (the Obleser lab operates mostly in English). An at least basic command in the German language and the willingness to learn German will be a plus.

Payment will follow salary group E13 TV-L (full time), if conditions based on German Public service regulations are satisfied. A final job classification remains reserved.

The university aims to increase the proportion of female staff members. Therefore, female applicants will be preferred, all qualifications being equal. The university advocates the employment of disabled persons. Hence, disabled applicants will be preferred, all qualifications being equal. We do not use application photos and therefore please do not send any. We explicitly welcome applications of people with a migration background.

All informal enquiries are welcome and should be addressed to jonas.obleser@uni-luebeck.de.

Applications and relevant materials (enclosing a cover letter of max. 2 pages that specifies your research interests and its relation to the Obleser lab; a Curriculum Vitae detailing your publication record, and teaching experience if any; PDF of up to two key publications if applicable; the contact details of two references) must be received no later than **March 15, 2019** as a single PDF to the e-mail address bewerbung@uni-luebeck.de quoting the reference number **1014/19** or by mail to

**Universität zu Lübeck – Die Präsidentin – Dezernat Personal
Ratzeburger Allee 160, 23562 Lübeck**
